Advance Care Planning with The Five Wishes, Part One.

This workshop will discuss advance care planning and why it is important. People are living longer, and medical technology continues to make advancements. Having an advance directive helps to ensure that you get the care that you want! The Five Wishes is a low-cost and legally binding advance directive, it is easy to understand and does not require a lawyer. The document covers naming a healthcare agent, and medical decisions and provides space for spiritual and social-emotional wishes as well. The presentation will focus on how planning ahead can be empowering and reduce stress on our loved ones.

**Tuesday, February 20th, 2024, from
12:00 PM to 1:00 PM CST
Virtual Event via Zoom**
