### PCORI Study began March 4th, 2024.

For the PCORI Study: A list of current counties with an existing agreement where we are supporting families:

The PCORI Study is a pragmatic, comparative trial designed to evaluate two interventions aimed at supporting bereaved parents who have experience the sudden and unexpected death of a child by connecting them to community resources.

Cook: 75 referrals  
Lake: 20 referrals  
McHenry: 3 referrals  
Kane: 3 referrals  
Will: 2 referrals  
DuPage: 0 referrals

■ Cook (75) ■ Lake (20)  
■ McHenry (30) ■ Kane (3)  
■ Will (2)

# Direct feedback from Families

---

Thank you so much-you are such a blessing!"

Thank you, I really do appreciate it and enjoy our conversations. I actually started back work today and it's been a little harder than I anticipated but I'm still glad that I came in.

And your words are something that I really keep in mind about how much I can tolerate and giving myself time. So thank you for that!"

Thank you for your support. Our hearts are broken and we're going to need help. My wife and I will look at the resources. Thank you again."

Thank you so much-so grateful for you!"

Thank you so much you are the only one who calls to check on us."
